

Is Your Telecom Inventory Accurate?

DC Telecom Consulting Group,

can accurately tell you how much or how little your inventory is, while identifying what potential savings might be available.

For more than 25 years we've been providing Fortune 1000 Companies with an extremely detailed summary of their Telecom Inventory, Costs, Contractual Obligations and Utilization, so they can answer that very question with the most reliable up-to-date information available. In doing so, we have been able to identify an average of 20-30% documented savings, resulting in millions of dollars back to our clients.
